

UMANG Services – Personal Usage Documentation (myData)

This document records my personal interaction history and step-by-step usage of major services available on the UMANG platform. It explains how I navigate different government services such as Aadhaar Update, ABHA Card, Bhashini, Department of Posts, and Telangana Ration Card through UMANG and DigiLocker authentication.

1. Aadhaar Services via UMANG

To update Aadhaar details, I first visit the UMANG Services portal: <https://web.umang.gov.in/landing/services> From the services page, I navigate to the Aadhaar section: <https://web.umang.gov.in/landing/department/aadhaar.html> UMANG requires secure authentication before accessing Aadhaar services.

Login Process: 1. Click on Sign In. 2. User is redirected to DigiLocker for authentication. 3. DigiLocker verifies identity using Aadhaar-linked mobile number. 4. OTP is entered and consent is provided. 5. After successful authentication, the user is redirected back to UMANG.

Post Login: After login, Aadhaar update services become accessible at: https://web.umang.gov.in/web_new/department?url=aadhar_new/service/3001&dept;_id=17&dept;_name=Aadhaar

2. ABHA (Ayushman Bharat Health Account) Services

ABHA services are accessed from: <https://web.umang.gov.in/landing/department/abha.html>
Available options:

1. Create ABHA Number: Users can create an ABHA number using Aadhaar. Mobile verification via OTP is required. A digital health ID is generated which can be used for accessing health services securely. 2. Registration: Users can register using an existing ABHA number or mobile number. OTP-based verification is used, and health profile completion is supported. 3. Download ABHA Card: After login, users can download their ABHA card instantly for hospital and clinic use. 4. My Profile: Users can view and update their ABHA profile details easily.

3. BHASHINI Services

BHASHINI language services are available at:
<https://web.umang.gov.in/landing/department/bhashini.html>

Available services include: 1. Speech Translator: Converts spoken input into another language (speech-to-speech). Useful for exams, communication practice, and language learning. 2. Text-to-Voice Assistant: Converts text into spoken voice. Helpful for visually impaired users and media creation. 3. Voice Interpreter: Translates spoken sounds into text. Useful for voice-based system interaction. 4. Translator: Provides text-to-text translation between multiple languages for better accessibility.

4. Department of Posts (DOP) Services

Department of Posts services are available at:
<https://web.umang.gov.in/landing/department/dop.html>

Key services include: 1. Validate Pincode: Users can check validity and details of any Indian pincode. 2. Calculate Postage: Allows calculation of postal charges based on weight and size. 3. Track Consignment: Provides real-time tracking of postal shipments using consignment number.

Department Contact Details: Email: plipg.dte@indiapost.gov.in Phone: 18002666868 Working Hours: Monday to Saturday, 09:00 AM – 06:00 PM Address: Dak Bhawan, Sansad Marg, New Delhi – 110001

5. Telangana Ration Card (T-Ration) Services

T-Ration services for Telangana are accessed via:
<https://web.umang.gov.in/landing/department/t-ration-telangana.html>

These services are managed by the Civil Supplies Department and ensure distribution of essential commodities.

Available Services: 1. Allocation to Ration Card: Users can view commodities allocated to their ration card. 2. Ration Card Transactions: Displays transaction history of issued commodities. 3. Allocation to Ration Shop: Shows allotment details for ration shops. 4. Ration Shop Locations: Allows users to find nearby ration shops using map view.

Department Details: Website: <http://www.civilsupplies.telangana.gov.in> Address: Civil Supplies Bhavan, Somajiguda, Hyderabad – 500082 Working Hours: 24x7

6. Platform Ownership and Governance

UMANG is a Digital India initiative under the National e-Governance Plan. It is owned and maintained by the National e-Governance Division (NeGD), Ministry of Electronics and Information Technology, Government of India. Last Updated: 11 December 2025
